

Sl. No	Tender Section	Tender clause / provision no.	Existing Text of the clause/provision in the tender	Clarification/ modification sought	Clarification provided by UIDAI
1	Page 49- 5.3.4	Item no 4	LIVE Scan Fingerprint device	please elaborate the information about its usage and image quality Compliance- FBI IAFIS Appendix F- Specifications (we unable to find out appendix F in current RFP)	Please refer to http://www.fbi.gov/hq/cjisd/iafis/efts70/appendixf.htm
2	Page 48- 5.3.1	Sr no 10	Latent print rejection	Clarification	Latent print rejection is a standard feature in the industry. Please refer to FP manufacturers for technical description.
3	Page 48- 5.3.1	Sr no 11:	counterfeit finger rejection	Clarification	Counterfeit finger rejection is a standard feature in the industry. Please refer to FP manufacturers for technical description.
4				Request to generalize the specifications	The purpose of these devices is to conduct certain very specific tests to analyze biometric trait quality in the Indian context. Certain types of devices are required to conduct test that allow analysis of past and new data. Please refer to Section V, 5.1 b) for details.
5	Section II	1.1,1.2,1.3	Technical Bid and Commercial Bid (2 Copies)	In clause 1.2, 1.3 it is mentioned original, first copy and second copy. Please clarify if we need to submit 3 copies or 2 copies	Two copies only
6	Section II	20.1	Pursuant to Clause 1.7 and Clause 7.1(c), the Tenderer should clearly indicate, giving explicit documentary evidence in the letter, in respect of the Goods/Services offered, the following, in the format given at Annexe 6.6:	There is no Annexure 6.6 in the tender	Annexure 6.6 is deleted and the information has to be given in the form of a letter only.
7	General	Alternative solution		Is vendor allowed to submit alternative solution for each device?	No. Please refer to item 6 above

Sl. No	Tender Section	Tender clause / provision no.	Existing Text of the clause/provision in the tender	Clarification/ modification sought	Clarification provided by UIDAI
8	Page 48/57,Item No. 1(Quantity 60) Supply, Installation and Commissioning 'Single Fingerprint Scanner'	SDK with extractor, matcher, .NET support, WHQL certified device driver and sample application	SDK with extractor, matcher, .NET support, WHQL certified device driver and sample application	Please let us know what type of matching functionality expected from SDK	Extractor should be able to create FP minutiae. Matcher should be able to compare minutiae of a FP sample against a gallery of FP. Extractor and Matcher must work as a pair. Both should have API so they can be incorporated in a application program.
9	13.2 paymnet terms page 20	paymnet terms		we request for considering payments to be as follow : 25% advance, 65% on delivery and balnace 10% on installation	The condition remains unchanged
10	Ref Section 20.1 (Page: 11) –			Format of Annexure 6.6 is not attached in the tender document. May we please have Annexure 6.6.	Please refer to answer at Sr. No. 6 above
11	Ref Section 5.1.a (Page No:47) –			For Item No:1, for the single fingerprint scanner which technology is preferred Capactive or Optical Fingerprint Readers.	No preference
12	Ref Section 5.1.b (Page No:47)			Is it possible to disclose the name of the 2-4 states where it is intended to run the test project.	No. The states names are not relevant to the tender requirements.
13	Ref Section 5.3.3 (Page No:49)			For Item No:3, what type of software should be supplied.	SDK for image capture, quality metrics computation & local iris matching
14	Ref General			What is the startup date of the project.	Delivery period of the equipment is given. The project shall commence once the euipmnets are installed and commissioned.

Sl. No	Tender Section	Tender clause / provision no.	Existing Text of the clause/provision in the tender	Clarification/ modification sought	Clarification provided by UIDAI
15	Ref General			In what format the collected data would have to be stored. Will it be different for each lot.	Storage format is not requirement for the devices sought unless specifically mentioned in the requirements sections V
16	Ref General			Is it acceptable if all the devices are given as an Integrated Unit i.e. as one Single Unit which will house all the devices.	No. The tender is sought for four different devices.
17	Ref General			What is the kind of support expected from the supplier by UIDAI after the installation and commissioning of devices.	Support & maintence requirements are mentioned in the tender in various sections.
18		page 48	10 Enhancement - Latent print rejection	will there be more elaboration available?	It is feature of device and device driver that can identify latent print left from the previous use and not allow an intruder to trick the device to accept it as the new sample
19		page 48	11 Enhancement - Counterfeit finger rejection	will there be more elaboration available?	It is a feature of device and device driver to not allow intruder to use a copy of FP on paper/other material instead of live FP
20		page 48	12 Enhancement - Rotation invariant	will there be more elaboration available?	It is a feature of matcher software to adjust orientation of the FP sample minutiae automatically to match against FP minutiae maintained in the gallery
21		page 48	13 Enhancement - Works well with dry, moist or rough fingerprints	will there be more elaboration available?	It is a feature of the device that allows better capture of dry, moist or rought FP through use of special surface such as silicon coating
22	5.3.1 Item No. 1(Quantity 60) Supply, Installation and Commissioning 'Single Fingerprint Scanner'		Form factor /Reader size < 70 mm x 40 mm x 17 mm	It restricts to certain vendor only	The clause remaind unchanged

Sl. No	Tender Section	Tender clause / provision no.	Existing Text of the clause/provision in the tender	Clarification/ modification sought	Clarification provided by UIDAI
23	5.3.4 Item No. 4 (Quantity 20) Supply, Installation Commissioning of 'Live Scan Fingerprint device'		Certifications/ UL,FBI certified	We suggest NCRB or any competent body should make Indian standards and all the companies should made compulsory to pass the standards.	Not relevent to the RFP under consideration
24	Fingerprint device'		Indicator /Green illuminated pictograms guide the user through image capture	Kindly explain why green illuminated pictogram, guide is required. Can any other colour is used for indication. Kindly explain the word "Pictogram" in detail.	Green is commonly recognized to indicate "pass" or "accpetable". A pictogram is an ideogram that conveys its meaning through its pictorial resemblance to a physical object. Further explanation of the word can be found in any English dictionary.
25	General			Request change in specification to include Hand Geometry Technology	The specifcations remains unchanged
26	General			Request change in specification to use single eye capture biometric enrolment device	Please refre answer at sr. no. 25
27		Annexure	Section 4.1.8, Page 35	Requires the manufacturer to certify that the agent is exclusive agent of the product in India	Clause 20.1 (iii) of Section III the word "sole " is removed. Anexxure 4.1.8 Para 2 to be read as"M/s._____ is authorised to bid, negotiate and conclude the contract in regard to this business against this specific Tender.
