Circular

Reference is invited to this office letter no. K-11020/44/2012-UIDAI (Auth-I) dated 24th May 2017 sent to all Authentication User Agencies (AUAs), Authentication Service Agencies (ASAs) and all STQC certified device providers vide which all AUAs/KUAs/ASAs were directed to upgrade to authentication API 2.0, e-KYC API 2.1, as the case may be, as well as to registered devices by 31st July 2017. Further, the AUAs/KUAs shall pay Rs 0.20 per authentication transaction and ASAs shall pay Rs 0.10 per authentication transaction done with non-registered devices w.e.f 1st August 2017 till 30th September 2017 after which no authentication transactions using non-registered devices shall be allowed.

2. It is observed that while some of the AUAs/KUAs have migrated to Auth API 2.0, e-KYC API 2.1 and have upgraded their devices to Registered Devices, some of the AUAs/KUAs are still performing authentication transactions using Registered Devices as well as using non-registered devices with Auth API 1.6 and e-KYC API 1.6. However, there are AUAs/KUAs which have not yet started transactions using Registered Devices.

3. In this regard, it is informed that UIDAI shall levy charges as mentioned in ibid circular for non Registered Devices transactions w.e.f. 1.8.2017. Therefore, it is again directed that AUAs/KUAs/ASAs should take necessary action to migrate to Registered Devices services at the earliest.
