IV. Improving Governance

I now turn to some important measures being taken for improving governance.

UID Mission

120.

The UID Mission has taken off and Aadhaar numbers are being generated in large numbers. So far 20 lakh Aadhaar numbers have been given and from 1st October 2011, ten lakh numbers will be generated per day. The stage is now set for realising the potential of Aadhaar for improving service delivery, accountability and transparency in governance of various schemes.
