TEST STRUCTURE- EA SUPERVISOR/OPERATOR EXAM CONDUCTED BY TESTING AND CERTIFICATION AGENCY

- As per the existing Test Structure for SUPERVISOR/OPERATOR exam, there are only 3 modules viz;

Modules	Maximum marks	No of Questions in Module
Basics Knowledge of UIDAI and Aadhaar	29	10
Demographic data entry	95	30
Biometric data capture	110	35
Total	234	75

- The duration of the tests is 105 minutes.
- Any candidate that obtains 117 or more marks shall get certified as **Supervisor**, whereas the ones getting 93 or more (but less than 117) shall be certified as **Operator**.
- Candidates securing less than 93 marks shall be declared fail and such candidates will have to apply for retest and will have to write all the modules.
- A candidate who wants to upgrade their certification role from Operator/CELC Operator to Supervisor role has to register afresh and pay the fresh test fee. The Supervisor certificate will be issued if the candidate score is above 117 marks.
- Any candidate who is absent or fails in the exam can use the same TCA registration ID to schedule their retest. Retest fee is to be paid by the candidate.

TEST STRUCTURE- CHILD ENROLMENT LITE CLIENT OPERATOR EXAM CONDUCTED BY TESTING AND CERTIFICATION AGENCY

- As per the existing Test Structure for CELC Operator, there are only 2 modules viz;

Modules	Maximum marks	No of Questions in Module
Basics Knowledge of UIDAI and Aadhaar	44	15
Child Enrolment Client Module	100	35
Total	144	50

- The duration of the tests is 105 minutes.
- Any candidate that obtains **57** or more marks shall get certified as Operator CELC
- CELC Operator can only perform Child Enrolment using CELC tablet and will not be able to perform any other type of enrolment (ECMP OR UCL).
